

THE POINT

Autumn Has Arrived

Fall into Another Season at The Point

After another summer has passed, autumn at The Point has arrived in the most stunning fashion. As long summer days transition into crisp fall evenings, the days begin to fill with shades of amber and gold. There is no shortage of captivating views during the autumn months.

Fall Foliage

Landscapes that were once flourishing with deep greens, transform into vibrant hues of orange, yellow and red. During the fall months every corner of the Adirondack Park is truly mesmerizing. Positioned on Upper Saranac Lake, The Point provides stunning views of the foliage from both land and water.

There are endless opportunities to take in these breathtaking views. Enjoy a leisurely boat ride to Windy Island or take a walk through the property to admire the numerous maple trees.

For those looking to find themselves fully immersed in the landscape, Baker Mountain is only a short drive from The Point. Request a gourmet picnic lunch from our kitchen and embark on your journey: a relaxed .9 mile hike, with views worthy of the highest peaks in the Adirondacks.

If you are lucky enough to be joining us for fall foliage in the Adirondacks we can not wait for you to take in the scenery. For those who are unable to join us this year, we hope you visit our Instagram for an up to date look into fall foliage at The Point.

Seasonal Cocktails are Brewing

As the seasons change, so do the cocktails. Our new Beverage Manager, Justin, has created several signature seasonal cocktails. Our maple old fashioned combines bourbon and maple for a taste of the Adirondacks with each sip. Our spiced cider is the perfect cocktail to warm up from the inside out. Each cocktail ties in flavors of fall with the elegance of The Point.

If you are looking for a personalized experience, Justin can also craft a cocktail based on seven personalized questions. Unique to your answers, enjoy a craft cocktail designed for you.

Bird's Eye View

Whether you choose to explore the trails on property or enjoy the views from your room there are several native bird species that may cross your path. The native plants on property provide both beauty and nourishment for local species. Mountain ash bears fruit in the fall months, and provides bird species with food for the entire winter.

Each day is filled with opportunities to admire the Canada jay, a sought after North American species. While other bird species may prove common, they are still as beautiful as species such as the black capped chickadee or the red breasted nut hatch.

5-Star Service for Every Guest

Enjoy a custom curated pet amenity basket tailored to your dog's size with each stay. At The Point we want your four-legged companion to feel at home with us. With extensive hiking trails and Upper Saranac Lake at paws reach, there are endless corners for your dog to explore. There is no additional charge to bring your dog to experience the five-star service at The Point.

The Season Ahead

Although it seems the leaves have not even touched the ground, winter bookings are quickly filling up. With the holidays on the horizon, there is no better place to relax before the holiday season. Inquire with Reservations today, for the perfect winter escape.
