Only the very best have been selected for our annual Top 100 Suites – as featured in the print edition of *Elite Traveler*. This year, our criteria has been more selective than ever. Not just the grandest, most luxurious suites in the world are making the cut, but those that also have inspiring initiatives in place — from employee volunteer programs and community outreach to eco-friendly, sustainable practices.

We asked the best hotels in the world to provide information on over 60 variables, meaning we now have one of the most comprehensive datasets on the world's top suites. Presented alongside stunning behind-the-scenes images, descriptions and luxury rankings, the Top Suites database lets you search for your next hotel stay using criteria including location, price per night and number of bedrooms.

Every suite in the database hits the minimum standard of five-star luxury, but the majority go above and beyond to ensure ultimate guest satisfaction. Through detailed analysis, we have also recognized the suites that meet exacting specifications for privacy, sustainability, fine dining and more with gold, silver and bronze distinctions.
