[The Point Resort](#), located in upstate New York, is over a century old and their cabin lodging is equally historic as it is rustic. With an average 5-star rating on TripAdvisor, The Point is a private, adult-only all-inclusive resort on the very edge of a mountain lake. Visiting The Point is a treat in itself, but foodies will love visiting this place for the culinary experience alone. They have an Executive Chef and professional team that creatively prepare delicious meals for the guests.
